

# HEMP ON DEMAND™

## THIS IS NOT YOUR AVERAGE CBD

### TLC FOR YOUR BRAIN

Day in and day out, we demand a lot of our brains! Show your brain some love with our hemp oil extract, rich in phytocannabinoids that balance brain activity and support mood, memory, and ease tension.

### FALL ASLEEP EASIER

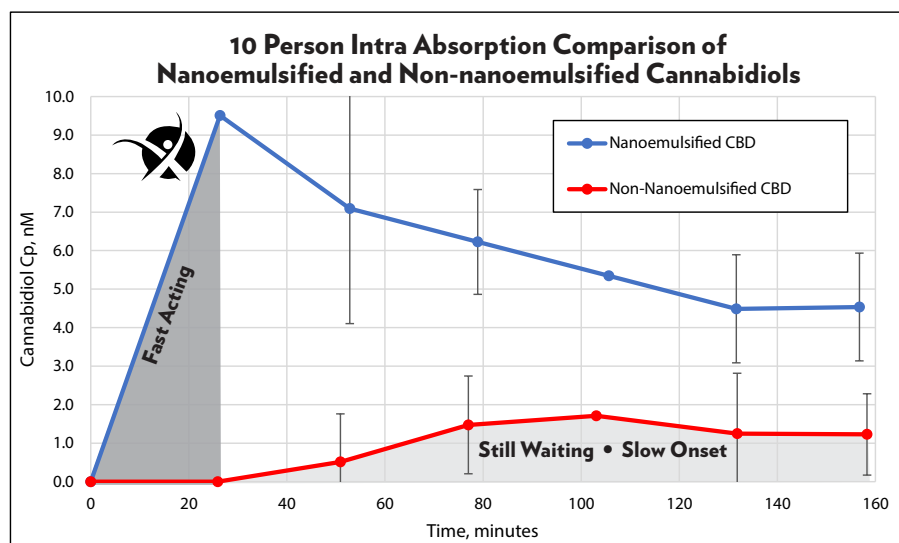

Do you struggle with falling asleep at night, or wake up feeling unrested? CBD can improve the quality of your sleep, giving your body the opportunity to rest and repair. Take Broad Spectrum Hemp Extract to support restorative sleep.

### BOOST YOUR ANTIOXIDANT DEFENSES

Our modern-day world is full of factors that stress our cellular antioxidant defenses. CBD, along with other phytocannabinoids turn on antioxidant genes, increasing our resilience in the face of environmental stressors.

## HIGH ABSORPTION HEMP

Our high absorption hemp extract delivers pure CBD to your bloodstream at 1/3 the cost per mg absorbed compared to other CBD products. Non-GMO, non-psychoactive, and rich in cannabinoids and terpenes for enhanced effect.

## BENEFITS

Our nanoemulsified Full Spectrum hemp extract is a premium blend of CBD, a Farm Bill compliant, low level of THC naturally present in hemp (less than .3%), and an assembly of beneficial terpenes that support whole-body health. The low level of THC in our extract does not produce psychoactive effects, rather, it is included to boost the therapeutic benefits of the other hemp-based compounds, a phenomenon referred to as the “entourage effect.”
