

# KETO ON DEMAND™

## REVOLUTIONARY FORMULA FOR ON DEMAND KETOSIS

**Keto On Demand™** is a next generation formula that dramatically accelerates the body's transition into ketosis, whether following a standard or intermittent keto diet. This nano-emulsified, phytonutrient blend allows you to reap the benefits of a ketogenic diet with greater dietary freedom.

This is NOT an exogenous ketone product – this powerful product stimulates ketone production from your own fat stores. Exogenous ketones don't really get you in ketosis. They boost ketone levels – yes – but they don't stimulate your metabolism like deep, natural ketosis.

Take 1 teaspoon by mouth twice daily and hold for 30-90 seconds before swallowing. May be mixed into water. Best taken first thing in the morning and/or on an empty stomach at least 20 minutes before meals.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

## POWERFUL BOTANICALS DELIVERED IN LIPOSOMES

**Keto on Demand™** offers encapsulated botanicals inside tiny liposomes that bypass the gut and absorb directly into your cells. Going keto activates powerful longevity pathways in your body including:  
**AMPK** (enhanced metabolism and fat burning)  
**Autophagy** (cellular cleanup, recycling, and repair).

### Resveratrol

Grape-derived botanical known for extending lifespan. Mimics fasting by activating AMPK.

### Milk Thistle

Contains silybin, a potent autophagy-activator.

### Quercetin

Known for antioxidant properties. Stimulates autophagy and AMPK.

### Cinnamon

Contains trans-cinnamic aldehyde, a known autophagy inducer.

### Diindolylmethane (DIM)

From cruciferous vegetables. Stimulates AMPK pathway.

### Berberine

Found in goldenseal. Boosts AMPK activity.

## Supplement Facts

Serv. Size: 5.0 mL (1 tsp.)  
Serv. Per Container: 10

Amount Per Serving	% Daily Value
--------------------	---------------

<b>Proprietary Blend</b>	415mg	**
Phospholipids (from purified sunflower seed lecithin), Diindolylmethane, Quercetin Dihydrate (from Sophora japonica flower), Milk Thistle Seed Extract (80% Silymarin), Resveratrol (from Polygonum cuspidatum root), Berberine HCL (from Phellodendron amurense bark), Cinnamon bark oil		

\*\*Daily Value (DV) not established

**Other Ingredients:** Glycerin, Water, Ethanol, Medium Chain Triglycerides, Vitamin E (as Tocofersolan and Natural Mixed Tocopherols), Natural Citrus Oils, Natural Flavoring and Propolis extract

Vegetarian

Tested  
Gluten Free

Tested  
Non GMO

Tested Soy  
Protein Free

# KETOSIS IS MORE THAN JUST KETONE LEVELS

Ketosis is a unique metabolic state in which you burn fat to produce molecules called ketones. Ketones then serve as clean-burning fuel for your cells.

Normally, your cells burn sugar (glucose) for energy. But when you eat a high-fat low-carb diet, you start burning fat for energy instead. Ketones are a product of this fat-burning. Eating low-carb stimulates unique metabolic pathways — like AMPK and autophagy — that drive the deeper benefits of keto. Taking ketone supplements won't activate these pathways.

# BENEFITS

- **A Revolutionary Botanical Approach**  
Designed to hack into the biological pathways to help shift the body from glucose to fat energy.
- **A Metabolic Targeted Formula**  
Targeted phytonutrients that help drive the body into a metabolic state that can burn fat instead of storing it for sharper thinking and better sustained energy.
- **Highly Bioavailable Formula**  
Lipid nanoparticle technology offers enhanced absorption which may help the body move quickly back into a keto state.
